

What We Do

The mission of Creation Moments (CMI) is to glorify God by presenting scientific evidences for the literal truth of the Bible, particularly in the area of Creationism. As an international outreach ministry, we provide the very best creation and world-view resources, offering analysis of scientific developments and current events from a biblical point of view.

Bookstore - Our stores offer a wide variety of books, tapes, CDs and videos for people of all ages and education levels. They examine subjects like evolution, the Flood, dinosaurs, creation-confirming discoveries and an array of other subjects to help build your faith and support biblical truths.

Daily Radio Program - For nearly 20 years, audiences have been listening to the daily Creation Moments radio program, offered in multiple languages, on over 1,300 radio outlets throughout the world.

Creation Outreach - CMI has a team of experts who share the truth of God's creation. These speakers are available for media interviews, conferences, seminars and church functions.

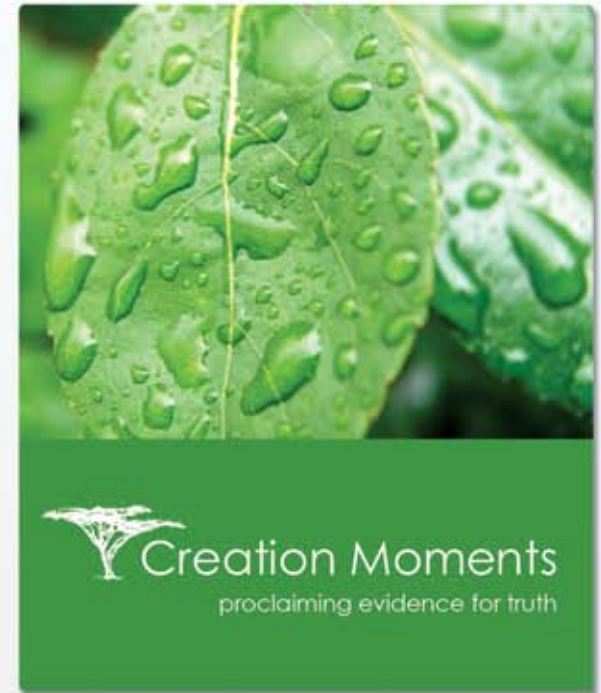

Visit Our Website

To learn more about Creation Moments, please visit our website at <http://www.creationmoments.com>. There you will be able to:

- Listen to and read transcripts of hundreds of our daily Creation Moments radio broadcasts.
- Sign up to receive the daily Creation Moment by email.
- Read dozens of informative articles written exclusively for Creation Moments by Ian Taylor and other notable creationist authors.
- Browse our online catalog where you will find hundreds of books, videos and other products. Among these is *Letting God Create Your Day*, a collection of scripts from the popular Creation Moments radio program.

Humble Beginnings

For more than four decades, Creation Moments (formerly Bible Science Association) has been declaring the literal truth found in the Bible. It all started with a humble minister in Boise, Idaho named Walter Lang. Young people in Lang's church were walking away from their faith in God, and after a year or two in college, many

abandoned the roots of their faith altogether. Evolutionary theory, with its godless worldview, was poisoning the young impressionable minds in the church. This trend troubled Lang so much that he decided to do something about it.

Lang searched the country for a publication devoted to promoting creation truth, but was unable to find any. He decided that he would start one himself: a newsletter that was freely available to anyone who wanted a copy. Soon, the demand for this new publication far exceeded his available resources, and from those simple beginnings, God birthed Creation Moments. Over 40 years later, the ministry now reaches thousands of students, homemakers, businessmen, educators, skeptics and Bible-believing Christians throughout the world.

*Because Truth Matters . . .
Creation Moments Exists
to Light the Way*

What We Believe

Creation Moments is a nonprofit inter-denominational Christian ministry. We seek to glorify God by presenting scientific evidence that underscores the literal truth of the Bible. We recognize the battle that is taking place within our educational system, the media and in some churches regarding biblical truth.

We believe God has spoken in Scripture and acted in creation and human history. We believe God created the earth in six days as the Bible indicates, and as fully man and fully God, we affirm that Jesus Christ came to redeem humanity from the ravages of sin.

Please see our website for a more complete doctrinal statement.
